

### Heli VTEM & Magnetic Survey Extended - Westonia Nickel/PGE/Gold Project

**Date:** 6 December 2022

**ACN:** 126 741 259

**ASX Code:** KGD

#### Highlights:

- An airborne helicopter VTEM and magnetic survey has been extended to include additional infill lines at Kula's Westonia Nickel/Platinum Group Elements/Gold Project
- The Westonia Project is situated less than 5km South of the Edna May Gold Mine
- This survey is to refine drill targets following the successful auger drill program outlining PGE and Gold anomalism.

Kula Gold Limited ("Kula" or "the Company") reports that the helicopter VTEM and magnetic survey has been extended with additional infill line kilometres at its 100% owned Westonia Project (Figure 1) following the Company's initial survey exploration program, announced on 30 November 2022.

The Company has engaged UTS Geophysics for the survey to add an additional 30 line-kilometres on tenement E77/2766 in the South of the Westonia Project with 100m line spacing.

#### Contact Details:

Office: Suite 2, 20 Howard Street, Perth WA 6000

As previously reported on 30 August 2022, ([Maiden Exploration Program -Westonia Project](#)) the Company reported anomalous geochemical results to 125ppb Pt + Pd (combined) and up to 35ppb gold in geochemical auger sampling, as well as 1.85g/t gold in a quartz vein rock sample from a lateritic breakaway. As well as anomalous copper reported on 28 October 2022, ([Amended - Anomalous Copper & PGE – Westonia Project](#)) with 498.3ppm copper anomalism, co-incident with magnetic structures and gossanous outcrop.

The survey is continuing to define drill targets for potential mineralisation at this exciting project only 5km from the long-standing Edna May Gold Mine.

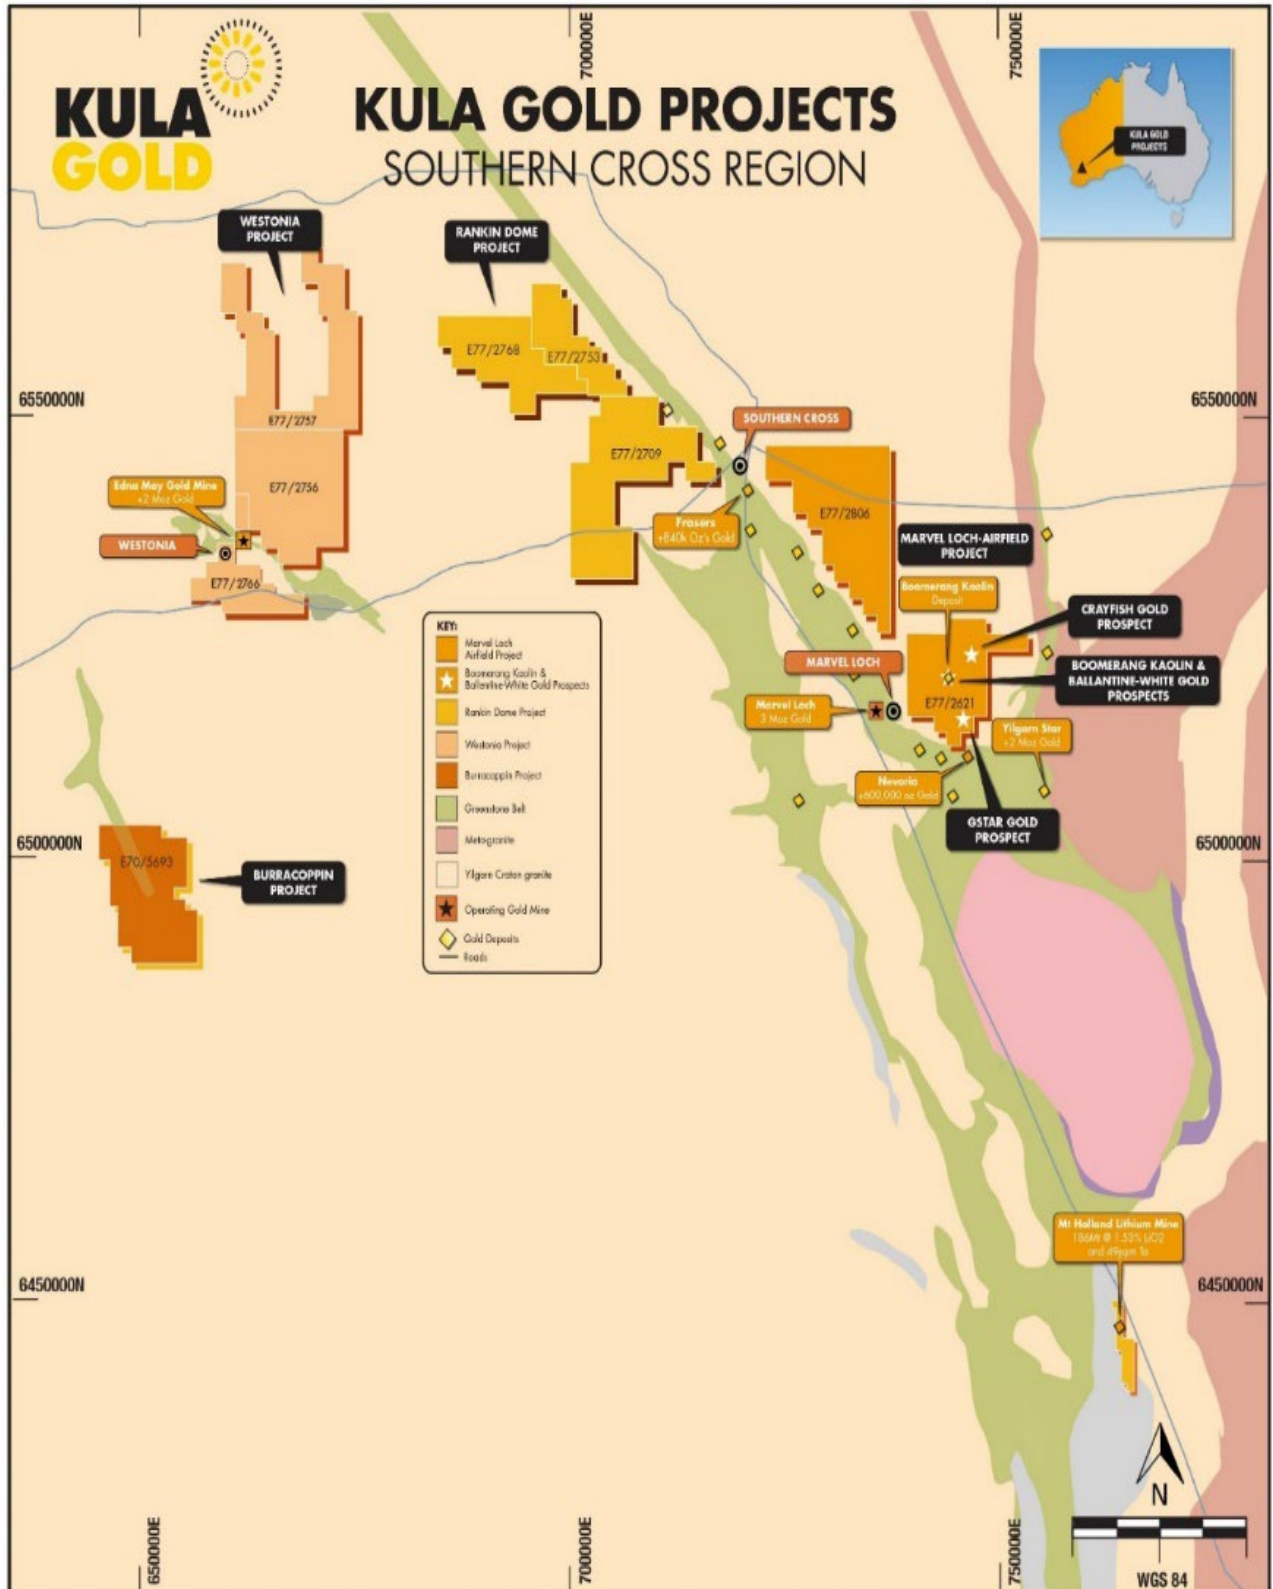

Figure 1: Kula Gold's Projects Southern Cross Region.

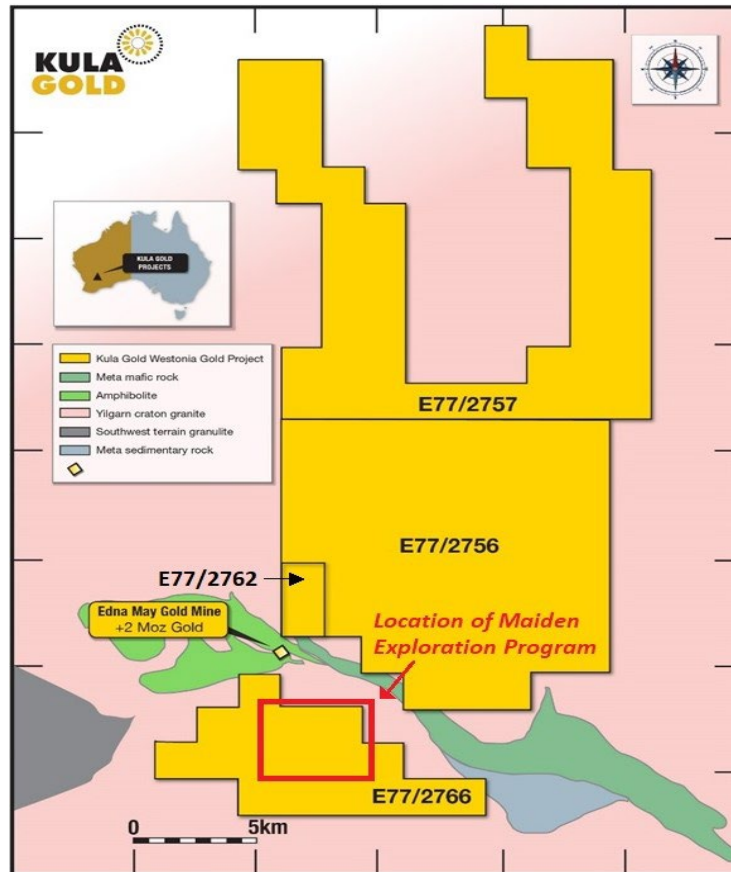

Figure 1: Location of the maiden exploration program, located less than 5km South of the Edna May Gold Mine.

## About the Company

Kula Gold Limited (ASX: KGD) is a Western Australian mineral exploration company with expertise in the discovery of new mineral deposits in WA. The strategy is via large land positions and structural geological settings capable of hosting ~+1m oz gold or equivalent sized deposits including lithium.

The Company is advancing projects within the South West region of WA for lithium and gold at Brunswick, as well as gold and PGE at Westonia adjacent to the producing Edna May Gold Mine (owned by ASX:RMS) in the WA goldfields.

The Company has a history of large resource discoveries with its foundation being the Woodlark Island gold project in PNG, (+1m oz Gold) which was subsequently joint ventured and sold to (ASX: GPR).

Kula's recent discovery was the large 93.3mt Boomerang kaolin deposit near Southern Cross WA – Maiden resource announced 20 July 2022. This project is in the economic study phase and moving to PE funding or trade JV.

The exploration team are busily working towards the next mineral discovery, potentially lithium near the world class Greenbushes Lithium Mine.
